About

My passion is to write well-structured, robust code that translates into products that perform well and look great. Since I started wading into the world of programming in 2020 I have thoroughly enjoyed getting into the why's and the how's of how technology works.

Skills

React, Javascript, HTML, CSS, Java, Python, SQL (MySQL, MongoDB), PHP, Node.js, Bootstrap

Experience

August 2021 - Current

Malibu Jack's - *Web Developer*

- Developed website from scratch
- Utilized SEO to increase page views by 30%

January 2022 - May 2022

KCTCS - *Embedded Tutor*

- Gave private and group tutoring sessions and reviews to 100 level Java course students
- Created study materials used by the class
- Also served as free Python tutor during same time

Education

September 2020 - May 2022

KCTCS, Lexington, KY - *AAS & Programming Certification*
